TESTIMONIALS

I have a passion for learning as much as I can about my singing. Training with Kathleen I have worked on extending my upper range and strengthening my lower range, reducing nasality, tension, and breathe control. Over the last 12 months breath control has been the focus so that I can achieve better stability in pitch and fluidity in delivery.

OWEN: Professional Singer and Musician. Song Writer

I started working with Kathleen about two years ago and we have focused on simple and effective exercises to build my chest and middle voice. I needed to work on improving the ease and flexibility of my articulators for singing. I'm now able to relax while singing and use a clear tone and open throat. My self-confidence as a singer is improving.

ANNE: IT Industry. Community Singer

Working with Kathleen I have learnt how breath is controlled and a vocal line is produced. I've also learnt how to work with an accompanist as a collaborator while the story is sung. I have gained true confidence as a singer.
